Budge Clinic Pediatrics
Logan, Utah

RE:

Dear Parents,

In the last few weeks the Medical Home team has been compiling information about your child and the unique health conditions which you deal with daily. The information we gather is intended to facilitate the services needed by your child. We take the facts from the notes in the medical records, and combine it with your input to complete an accurate report with regard to the health status of your child.

This report is called a Medical Summary Care Plan (MSCP), and you will have a copy for your records and future reference. Your pediatrician regards this report as another valuable tool for serving the needs of your child. It is our hope that you won't have to repeat the medical history every time you see new people.

Please read the preliminary copy of your child's Medical Summary Care Plan and check it for accuracy. Should you find any errors, or missing information about hospital visits, medications, etc. please make the correction and return the report to our office.

Since information changes as your child grows and develops, we ask that you contact us so we can update changes in medications, therapies, specialists, etc. Thank you so much for allowing us to work with you and your child. If you have any questions or concerns, please call us at 555-555-5555.

Sincerely,
