You generally do not add anything under "Work Cited" unless you have a way to demonstrate that.

For publications that have been on the Portal for some time, there may be viewers in other countries that you can list under Global Impact; contact the Portal staff to request this information as well as number of views in a given timeframe. You can select countries of impact here:

Display on My CV 😌
Display on Selected Works Section (U of U Profile Sites)
✓ Display on U of U Profile Sites ♀
Community Engagement 3
